READ INSTRUCTIONS AND REVIEW ALL DIAGRAMS BEFORE INSTALLING THE FIXTURE.

CAUTION:

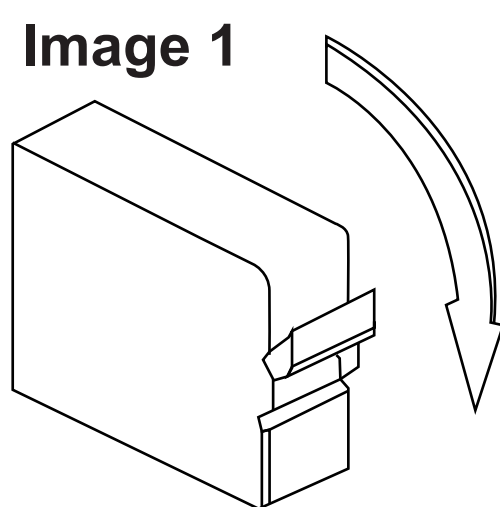

Risk of electrical shock. Make sure the power supply is OFF before installing or maintaining the fixture. Never perform maintenance or cleaning while the fixture is powered. Disconnect the power and ensure the fixture is cool before maintaining.

GENERAL:

This product **MUST** be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product. Fixtures must be wired in accordance with the National Electrical Code and all applicable local codes. Proper grounding is required for safety.

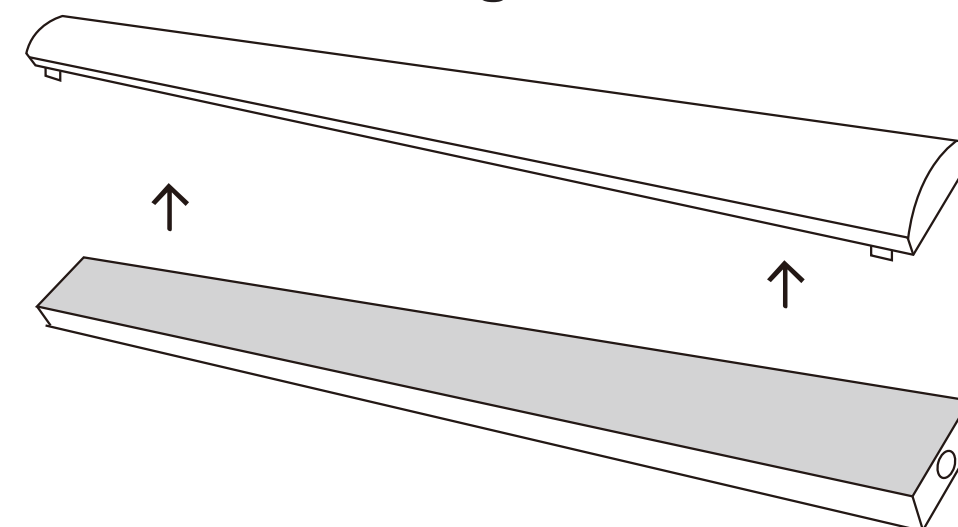

ASSEMBLY AND INSTALLATION:

1. Locate the main power and turn it off. (see image 1)

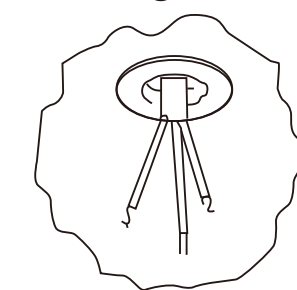

2. Remove the diffuser parts from the fitting. (see image 2)

Image 2

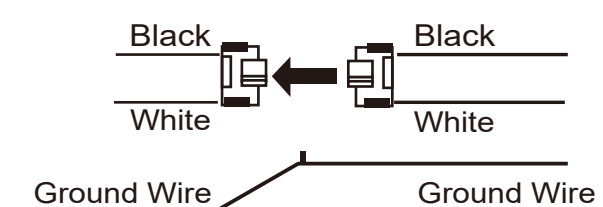

3. a. Put the cable through the hole. (see image 3a)
b. Connect the connector and make sure all wires go into correct hole of connector. (see image 3b)
c. Connect the ground wire of the power cord to the ground wire of the fixture. Ensure all conductors are fully sleeved and insulated.
